Purpose: Help security leaders complete investigation report efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional investigation report document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a investigation report using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level investigation report. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 50: Evidence Gap Analysis

Purpose: Help security leaders complete evidence gap analysis efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional evidence gap analysis document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a evidence gap analysis using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level evidence gap analysis. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 51: Root Cause Analysis

Purpose: Help security leaders complete root cause analysis efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional root cause analysis document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a root cause analysis using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level root cause analysis. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 52: Recommendation Report

Purpose: Help security leaders complete recommendation report efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional recommendation report document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a recommendation report using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level recommendation report. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 53: Investigation Closure Report

Purpose: Help security leaders complete investigation closure report efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional investigation closure report document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a investigation closure report using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level investigation closure report. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 54: HR Investigation Support

Purpose: Help security leaders complete hr investigation support efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional hr investigation support document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a hr investigation support using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level hr investigation support. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 55: Regulatory Incident Review

Purpose: Help security leaders complete regulatory incident review efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional regulatory incident review document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a regulatory incident review using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level regulatory incident review. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Operations

Prompt 56: Shift Handover

Purpose: Help security leaders complete shift handover efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional shift handover document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a shift handover using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level shift handover. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 57: Daily Activity Report

Purpose: Help security leaders complete daily activity report efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional daily activity report document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a daily activity report using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level daily activity report. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 58: Weekly Operations Report

Purpose: Help security leaders complete weekly operations report efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional weekly operations report document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a weekly operations report using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level weekly operations report. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 59: Site Coverage Plan

Purpose: Help security leaders complete site coverage plan efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional site coverage plan document suitable for management review.

Copy-and-Paste Prompt: Act as an experienced Corporate Security Manager. Create a site coverage plan using the information provided. Include risks, actions, recommendations and next steps.

Advanced Version: Act as a Security Director preparing a board-level site coverage plan. Include trend analysis, operational impact, compliance considerations and strategic recommendations.

Security Manager Tips: Verify facts, maintain confidentiality, remain objective, and ensure all recommendations are practical and evidence-based.

Prompt 60: Patrol Schedule

Purpose: Help security leaders complete patrol schedule efficiently and professionally.

When to Use It: During operational, client, HR, investigative or leadership activities requiring structured communication.

Example Input: Site notes, incident details, staffing information, risks, KPIs or investigation facts.

Example Output: A professional patrol schedule document suitable for management review.
